

Program 1 : Blinking LED

V.K. Prithvik Aniketh
IBM18CS119

Code :-

int Led Pin = 13;

void setup()

{

Pin Mode (Led Pin, OUTPUT);

{

void loop()

{

digital Write (Led Pin, HIGH);

delay (1000);

digital Wrt (Led Pin, LOW);

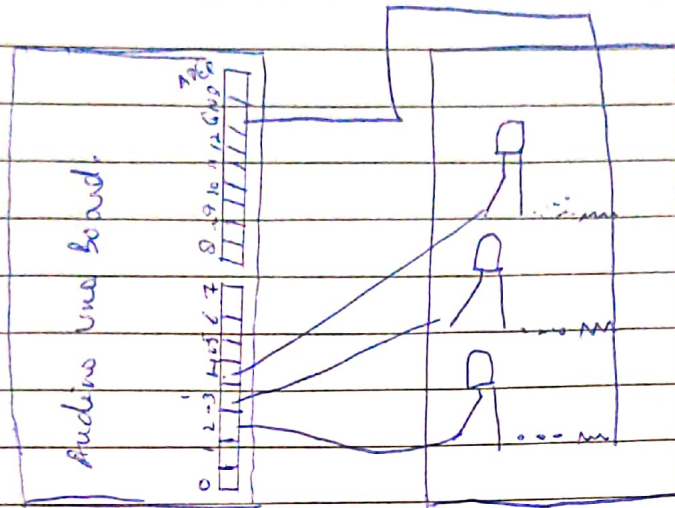

delay (1000);

}

Program 2 : Traffic Light

VK Prithwik

IBMBCS19.

void Setup ()

{

Serial Begin (9600);

pin Mode (3, output);

pin Mode (12, output);

pin Mode (11, output);

}

Void loop ()

{

digital Write (3, HIGH);

digital Write (12, Low);

digital Write (11, Low);

delay (5000);

digital Write (3, Low);

digital Write (12, HIGH);

~~delay~~ digital Write (11, Low);

delay (1000);

digital Write (3, Low);

digital Write (12, Low);

digital Write (11, HIGH);

delay (5000);

{
